

WATER SANITIZERS

Jandy's line of industry-leading water sanitizers provides clean and clear water while minimizing the hassle of maintenance. Offering a range of equipment from salt chlorinators and traditional erosion feeders to supplemental sanitizers that reduce chlorine use and self-dosing solutions, Jandy water sanitizers are designed for reliability, easy servicing and optimal performance to ensure the clearest, most luxurious water possible.

TruClear® Salt Chlorinator

- Designed for easy installation, use and service
- Constructed of durable Jandy Valve® CPVC material
- Transparent window for quick blade inspection
- Removable cell with attached cord for easy cleaning
- Compact design for easy integration into most equipment pad configurations
- Union version available for retrofit applications
- Auto-reversing polarity to help reduce calcium buildup
- 115V/240V hardwired and self-contained design

AquaPure®

- Efficient chlorine production and enhanced cell life
- 3-Port cell has 90 degree plumbing flexibility, durable housing, sensor integrated into third port and larger unions for easy installation
- Automatic self-cleaning feature ensures consistent operation and extends the life of the cell
- Exclusive tri-sensor technology allows reliable electronic water flow detection to ensure maximum performance

PureLink™

- Incorporates AquaPure® electronics into the AquaLink® RS Power Center for a clean, simple and cost-effective installation
- Supplies power to either Fusion Soft or AquaPure cells

Jandy® TruChlor™ Erosion Feeder

Jandy TruChlor Erosion Feeder provides convenient, steady chlorination that works even at lower pump speeds.

- In-line VS Erosion Feeder is engineered to work well with variable-speed pumps to maintain steady chlorine flow – even in lower flow conditions. Requires only 20 GPM
- Quick installation or removal of variable-speed conversion kit with no tools required
- Transparent glass lid lets you easily see the chlorine tablet level
- Built-in flow indicator shows if water is flowing through the unit
- Replaceable valve and flow indicator assembly for serviceability and maintenance
- Comes with standard 2-inch or 2.5-inch Jandy unions
- Wide body makes clean-out easy
- Available in standard in-line, in-line VS, and off-line versions

Jandy® TruSense™ Water Chemistry Analyzer

- NSF certified Water Quality Test Device
- Measures pH and ORP (pH only model available, upgradeable by replacing the PCB and adding the ORP sensor)
- In-line flow cell plumbs directly to the return line at the equipment pad using included, durable Jandy unions
- Included bonding lug prevents stray electrical current from entering water and affecting pH & ORP readings
- Includes sensors, along with 2 vials of buffer solution for testing and calibration
- Requires Jandy AquaLink® RS revision X or later automation system

Jandy® TruDose™ Chemical Controller

- Automatic Chemical Dosing – Senses pH and ORP readings and doses as needed to maintain balanced water chemistry between service visits
- Perfect Partner For Jandy Salt Systems – TruDose controls ORP by turning on saltwater chlorination with Jandy AquaPure® salt chlorinators
- Lowers pH by dosing acid when needed
- Protects Your Pool – Protects pool equipment and surfaces from corrosion and scaling by eliminating ‘peaks and valleys’ of inconsistent water chemistry
- Eliminates Wasted Chemicals – TruDose uses only as much or as little as needed
- Auto-Adjusts for the Season – TruDose maintains pH and chlorine levels based on actual demand
- Easy Installation – TruDose comes pre-wired and plugs into a weather-protected GFCI outlet

Jandy® TruGuard™ – Mineral Sanitizer

TruGuard is a sanitizing solution used in conjunction with a chlorine or bromine delivery device that leverages mineral technology to destroy algae and bacteria and help deliver cleaner, clearer, more comfortable water for your pool and spa.

- Reduces chlorine use up to 50%
- Lowered chemical use prolongs the life of equipment
- Destroys bacteria and algae growth
- You won't feel, smell or be affected by heavy chlorine usage
- Works with chlorine or bromine in-ground pools, plus it helps extend the cell life for saltwater pools

*Cannot be used with biguanides nor with other copper algaecides

Fusion Soft

- Professional-grade salt cell with exclusive AquaPure® technology
- Integrated Nature2® mineral cartridge for superior sanitizing*
- Exclusive hybrid innovation brings the best sanitizers together in one unit

*Cartridge sold separately

THERE'S ONLY ONE NATURE²

Nature² uses the sanitizing power of minerals, like silver and copper, to give you cleaner, clearer water while providing round-the-clock algae control – even when your pump is not running. Using an EPA-registered mineral bed technology, Nature² offers an eco-friendly solution to effortlessly defend against algae for a more enjoyable swimming experience.

Decrease Costs. Increase Enjoyment.

Nature² provides a cost-cutting alternative to heavy chlorine consumption by reducing necessary chemical usage by up to 50% in most pools.

Perfect Harmony

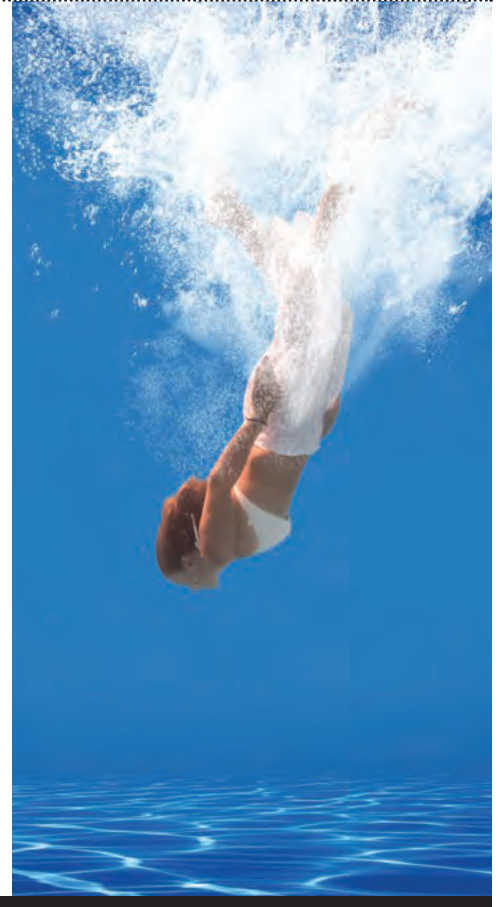

Effective and easy-to-use, Nature² works in conjunction with your pool's filtration system, and helps maintain a neutral pH for softer, more balanced water.

Enhanced Comfort

You won't feel, smell, or be affected by harsh chemicals. The natural mineral process continuously purifies water for a more enjoyable swimming experience.

Maintenance Made Easy

Guaranteed not to stain, Controlled Release Technology (CRT) automatically dispenses the right amount of mineral ions into your pool water – decreasing maintenance.

PREMIUM DELIVERY SYSTEMS

POWER PACK SOLD SEPARATELY, ALSO WORKS WITH EXISTING AQUAPURE® AND PURELINK POWER PACKS.

Nature² Fusion Soft Salt Chlorinator + Nature² System

Get the total mineral solution with Fusion Soft, a robust salt chlorinator that combines the proven benefits of Nature² for the ultimate swimming experience. Nature² is the perfect supplement for salt systems. It helps maintain pH levels for the best water quality, while extending the life of the salt cell. This all-in-one system automatically generates chlorine from ordinary salt.

- For in-ground pools up to 40,000 gallons
- Engineered to commercial standards

Nature² Fusion Inground Chlorine Tablet Feeder + Nature² System

Nature² Fusion Inground is a robust and convenient chlorine and mineral sanitizing system. This easy-to-use solution automatically dispenses Nature² minerals and chlorine for a sparkling clean, balanced pool.

- For in-ground pools up to 45,000 gallons
- Engineered to commercial standards
